MYSORE STATE DEPARTMENT OF PUBLIC HEALTH.

NOTE ON THE STATE OF PUBLIC HEALTH IN MYSORE STATE FOR THE WEEK ENDED SATURDAY, JANUARY 12, 1957.

The State remained free from Plague during the week as in the previous week. The Cities of Bangalore, Mysore and Kolar Gold Fields reported free from Plague. Comparative figures for the corresponding week in 1955 and 1956 were 5 attacks with 2 deaths and 4 attacks with 1 death, respectively.

A total of 25 attacks with 4 deaths from Small-pox was reported from Chitaldrug Town and Mulbagal Taluk.

One hundred attacks with 58 deaths from Cholera were reported from the Taluks of Afzalpur, Chittapur, Serum, Chincholi, Raichur and Deodurg.

The State remained free from Infectious Hepatitis during the week.

The State continued to remain free from Yellow Fever and Relapsing Fever.

The total mortality for Bangalore amounted to 255 (53 in hospitals) for the week representing a calculated death rate of 18.5 (10.7 excluding hospital deaths) per mille of population (annual basis) as against 16.3 (12.3 excluding

hospital deaths) for the corresponding period of last year. Classified according to causes, the deaths numbered 13 under Other Fevers, 48 under Dysentery and Diarrhoea, 2 under Consumption, and 192 under All Other Causes. The reported mortality was very low.

The total mortality for Mysore City was 55 (13 in hospitals), for the week, representing a calculated death rate of 9.7 (7.4 excluding hospital deaths) per mille of population (annual basis) as against 13.3 (10.2 excluding hospital deaths) for the corresponding period of last year. Classified according to causes, the deaths were: Other Fevers 8, Dysentery and Diarrhoea 5, and All Other Causes 42. The reported mortality was very low.

There were 15 deaths (nil in hospitals) for the week from all causes in Kolar Gold Fields City equivalent to a calculated death rate of 4.5 (4.5 excluding hospital deaths) per mille of population (annual basis) as against 17.0 (15.3 excluding hospital deaths) for the corresponding period of last year. Classified according to causes the deaths numbered: 1 under Malaria, 3 under Other Fevers, 2 under Dysentery and Diarrhoea, 9 under All Other Causes. The reported mortality was very low.

S. SESHAGIRI RAU,
Director of Public Health.
